SECRET

-2-

1. Street: cobblestone, seven meters wide, good condition, name of street was Pulawska, leading north eight kilometers to Warsaw and south one kilometer to Sluzew from installation. Street was 350 m. west of small arms factory.
2. Trolley Tracks: double track next to road (Pt. 1).
3. Warsaw South RR Station: two-story, brick building, about 500 m. north of small arms factory.
4. RR Tracks: double track, standard gauge, leading south from railroad station (Pt. 3), to Sluzew about two kilometers. Tracks were 200 m. west from small arms factory.
5. Street: cobblestone, five meters wide, leading east 15 km. to Wilanow ~~N 52-10~~, ~~E 21-06~~ from street (Pt. 1), street was 150 m. north of small arms factory.
6. Dirt Road: four meters wide, road surrounded entire factory area. Road was of asphalt construction, seven meters wide on south end of installation and led to street (Pt. 1).
7. Fence: wood, 2½ m. high, with four strands of barbed wire on top, surrounding entire installation, 80 m. from east to west and 50 m. from north to south.
8. Entrance: iron picket gate, four meters wide, 2½ m. high, one armed military guard was noted at gate.
9. Warehouse: wood, 15 m. long, eight meters wide, four meters high, with tar paper covered shed type roof. At time of observation [] this warehouse was completely stocked with crates. Some crates were also noted around warehouse [] they were set out to be delivered to firing range (Pt. 13). Number of crates unknown. However, [] these crates contained carbines, PPsh type machine guns, CKM - heavy machine guns, RKM - light machine guns, pistols, hand grenades and small arms ammunition, which on numerous occasions [] delivered excepting of hand grenades, to firing range (Pt. 13). Warehouse was five meters from fence (Pt. 7). 25X1
10. Foundry: same construction and dimensions (Pt. 9), except that this building extended 2½ m. below ground level. [] observed through an open door while walking by, melting of pig iron and molding of gun barrels. [] 25X1
11. Assembling, Packing and Crating Warehouse: same construction and dimensions as (Pt. 9), and 15 m. from foundry. (Pt. 10). [] observe the cleaning, assembling, packing and crating of weapons through an open door while walking by. [] 25X1
12. Unknown Building: three-story brick, 50 m. long, 10 m. wide with shed type roof.
13. Firing Range: [] surrounded by a barbed wire fence 1½ m. high and that there were three firing positions with distances of 50 m., 100 m., and 200 m. There was a small shanty in area. Firing range was 100 m. from street (Pt. 1). 25X1
